WHY CHOOSE HURRELLS?

- FAMILY RUN COMPANY - Established in 1946 with three generations still involved within the business
- INDEPENDENT - We can pick the best varieties for optimal performance (from a huge range of plant breeders)
- OWN MIXING PLANT - On site mixing so we can produce tailored bespoke mixtures
- SUPERIOR RANGE - Our mixtures are selected from Hurrells trials, technical experience, feedback, Recommended Grass & Clover Lists For England & Wales, SRUC Recommended List of Grass and Clovers, Pasture Profit Index and breeders trials from across the world.
- RESULTS - Higher yields, high D value, high resistance to disease, high protein, high savings ££ and many more benefits!
- HIGHLY RATED - We are 4.7/5 rated on Google

Pays £732 per ha annually (Page 21)

AHW3 - Beetle Bank

Pays £764 per ha annually (Page 22)

SOH2 - Spring Sown Cover crop

Pays £163 per ha annually (Page 6-7)

SOH3 - Summer Sown Cover crop

Pays £163 per ha annually (Page 6-7)

SOH4 - Winter Cover Following Maize

Pays £203 per ha annually (Page 6-7)

- Rapid cover crop is our fastest growing and most economical cover crop seed mixture
- Covers bare ground quickly and acts as a weed suppressor when sown in spring or autumn
- Designed to lift and hold fertility and to benefit the soil structure
- Includes a range of rooting types and depths that help to condition the soil over a short period of time
- Must be surface sown or placed very shallow in the seed bed then rolled (Ideally no deeper than 10mm to encourage a fast and reliable germination)
- Compliant with CSAM2 and SAM2

In the **#GREENBAG**

2.00 kg Yellow Mustard
2.00 kg Fodder Radish
0.50 kg Phacelia

4.50 kg per acre | SKU: 7930

For an organic option please contact us!

CSAM3 HM.44 HERBAL ESSENTIAL

- HM.44 is a herbal mixture that is suitable to last at least 3 years
- This mixture will become well established strongly structured mix to protect soil and provide good root growth that will benefit soil structure
- HM.44 is a highly capable mixture that will hold fertility & will also minimise any nutrient leaching covering and 'armouring' the soil well
- Fits the criteria for CSAM3 Herbal Leys

In the **#GREENBAG**

Testimonial - James Herrick @Baldys_Farm, Beef Farmer Of The Year Gold Winner 2024

"HM.28 Never ceases to amaze me. Its diversity provides excellent resilience, longevity and weight gain in our cattle despite the heavy clay soils it's grown on. Its become our 'go to' herbal ley of choice".

CIPM2 FLOWER RICH MARGINS (IPM2/AB8)

- Contains UK native wildflowers and low maintenance grasses
- Provides a large amount of pollen and nectar rich plants through the year
- Creates habitats for insects (beneficial insects such as bees, butterflies, hoverflies etc.) & farmland birds
- Contains large amounts of RHS Plants for pollinators wildflower species
- Fits the criteria for CIPM2, IPM2 & AB8 Flower Rich Margins

In the **#GREENBAG**

CIPM3 INTERCROP LEGUME MIX (IPM3)

- Low growing shade tolerant plants that will survive between other taller crops
- Both plants provide strong growth, which makes them excellent weed suppressors
- Nitrogen fixers
- High protein content
- Attracts Bees & beneficial insects
- Normally used for 1-4 years but can be left longer if required
- Used with cereals, main crop brassicas, maize crops, vegetable crops, tree plantings, solar panels etc (undersown or broadcasted)

1.50 kg Virgo Pajberg Common Trefoil
1.50 kg Merwi White Clover

3.00 kg per acre | SKU: 7048

For an organic option please contact us!

CIPM3 HM.41 MAIZE UNDERSOWING (IPM3)

- Dynamic grass mixture for maize undersowings
- Reduction in nitrogen run-off and soil erosion
- Trials data suggest possible yield gains
- Improves soil structure and organic matter
- Better soil moisture retention
- Easier travelling conditions at Maize harvest
- Additional use of forage later in the season (post harvest)
- Fast growing and easy to establish

CAHL3&4 BUFFER STRIPS - OPTION A (CIGL3/ BFS1/BFS2/BFS3/WBD3/WBD5)

- Contains more agricultural type species compared to our other slower growing mix
- Quick to establish and good for weed suppression
- High tolerance to very wet areas making it ideal for watercourses and in-field ponds
- Deep rooting to survive also in dry conditions too
- Highly suited to margins and buffer strips around fields
- Can be used for grass meadows and bankings

10.00% Timothy

AHW3 ENHANCED BEETLE BANK (AB3)

- Wildflower enhanced version of beetle bank (over 20 different wildflowers)
- Beetle bank seed mix produces tall, tussocky grass areas ideal for nesting birds, mammals and over-wintering insects. The wildflowers attract insects, bees, butterflies, hoverflies etc
- Over-wintering insects have been proven to feed on other insects that can damage crops, so it is beneficial to surrounding crops
- Ideal for maintaining soil structure and for preventing soil erosion

30.00% Cocksfoot

SOH4 HM.13 DYNAMO

- Dynamic growth and top yield potential for both Autumn and Spring production
- Very vigorous establishment can also be used for sowing after maize
- Mature crop in 10 weeks
- Easy to establish
- Aimed at a duration period of 18 months
- Excellent potential for grazing and Autumn silage
- Premium Multi cut Westerwolds used including top performing LEMNOS

In the **#GREENBAG**

4.00 kg LEMNOS Westerwolds
4.00 kg PELETON Westerwolds
3.00 kg SYNTILLA Italian Ryegrass Dip
3.00 kg MERIBEL Italian Ryegrass Dip

14.00 kg per acre | SKU: 7013 | 1-2 Years Cutting

For an organic option please contact us!

HM.10 SHORT TERM HI PRO RED

- A 1-3 year low input grass and red clover seed mixture
- Very good yields of high quality silage
- Silage produced is high in protein and trace elements
- Red Clover adds the feed value to the silage (20% protein content)
- Fixes large amounts of atmospheric nitrogen, which will benefit this ley & also the following crop
- Late heading perennial ryegrass is prostrate growing and gives good ground cover for late grazing and acts as a weed suppressant

In the **#GREENBAG**

3.00 kg SYNTILLA Italian Ryegrass Dip
 3.00 kg GEMINI Italian Ryegrass Tet
 2.00 kg RUSA Hybrid Ryegrass Tet
 2.00 kg TETRAGRAZE Hybrid Ryegrass Tet
 1.50 kg KENDAL Perennial Ryegrass Late Dip
 1.50 kg ROZETA Red Clover
 1.00 kg GLOBAL Red Clover

14.00 kg per acre | SKU: 7010 | 1-3 Years Cutting

For an organic option please contact us!

HM.14 HYBRID POWER

- Intensive cutting mix for hay or silage but can also be grazed and is useful for 2 heavy cuts and graze system
- High yielding intensive cutting mixture with aftermath grazing potential
- Hybrids establish much faster than normal perennials and are very easy to establish and grow
- Hybrids combine the yield of an Italian and the quality/sugar content of a quality perennial that has more leafy growth characteristics
- Most hybrids are also tetraploids so they offer excellent silage fermentation
- Very good palatability even in summer production

In the **#GREENBAG**

4.00 kg TETRAGRAZE Hybrid Ryegrass Tet
 4.00 kg ASTON CRUSADER Hybrid Ryegrass Tet
 4.00 kg AGASKA Perennial Ryegrass Int Dip
 2.00 kg LOFA Festulolium

14.00 kg per acre | SKU: 7014 | 3-4 Years Dual Purpose

Option available with white clover - (HM.14C)

For an organic option please contact us!

HM.26 CONQUEROR

- Premium long term dual purpose mixture. Combining high sugar & high protein grasses for maximum energy values, long term high performance & maximum MILK
- Excellent grazing performance that provides a very dense sward, good D values and high intakes
- High 1st & 2nd cut yields and rapid 2nd cut regrowth, compared to other quality mixtures
- All milk index grasses are tested for digestibility of organic matter, crude protein, water soluble carbohydrates (mainly sugar), cell wall fraction, digestibility of cell wall and ash content
- High sugar contents, excellent digestibility, high resistance to rust, consistent high yields & exceptional winter hardiness

In the **#GREENBAG**

3.00 kg ASTON CONQUEROR Perennial Ryegrass Int Dip
 2.60 kg ASTON VISION Perennial Ryegrass Int Tet
 3.00 kg CHATSWORTH Perennial Ryegrass Int Tet
 2.50 kg TIMING Perennial Ryegrass Late Dip
 2.90 kg NASHOTA Perennial Ryegrass Late Tet

14.00 kg per acre | SKU: 7032 | 4-5 Years Dual Purpose

Option available with white clover - (HM.26C)
 Option available with red clover - (HM.26R)

For an organic option please contact us!

HM.17 ENDURE

- First class cutting and grazing mix
- Based upon late heading grasses producing a noticeably very dense, hardwearing sward
- Excellent 'D' values and palatability for optimum intake and performance
- Consistent production of high D value combined with high levels of sugar, minerals & protein.
- Surplus growth makes excellent silage and suitable for all livestock
- Top persistence and hardiness for many years reliable output
- Retains optimum quality/D value when left to bulk up as contains late maturing grasses that are exceptionally resistant to produce seed heads this maximises quality over long periods of the year.

In the **#GREENBAG**

3.00 kg ZORGUE Perennial Ryegrass Late Dip
 3.00 kg SWAN Perennial Ryegrass Late Dip
 2.50 kg BALLINTOY Perennial Ryegrass Late Tet
 3.00 kg MELPAULA Perennial Ryegrass Late Tet
 1.50 kg COMER Timothy
 1.00 kg CANTERBURY White Clover Blend

14.00 kg per acre | SKU: 7017 | 4-8 Years Dual Purpose

For an organic option please contact us!

HM.40 FESTULOLIUM PLUS

- New festulolium mixture
- Very high cutting yields
- Ideally suited to dry and free draining soils
- Very tolerant to drought prone soils
- Excellent persistence
- Early spring growth
- Festuloliums offer good sugars, high drought tolerance, waterlogged tolerance, early spring growth, good winter hardiness, high stress tolerance

In the **#GREENBAG**

4.00 kg FOJTAN Festulolium
4.00 kg PERSIUS Festulolium
3.00 kg RITCHIE Perennial Ryegrass Tet
3.00 kg ASTON VISION Perennial Ryegrass Tet

14.00 kg per acre | SKU: 7058 | 5+ Years Cutting

For an organic option please contact us!

HM.19 OVERSEEDER

- Ideal for over-seeding damaged/worn-out pastures
- Our trials suggest, tetraploid grasses give better results when over seeding. Due to the seed being larger than diploids, establishing faster and is stronger and more dynamic in the early phases of establishment against existing grasses.
- Can be direct drilled into existing grassland
- Can be broadcasted (grass should be cut low or grazed for best results)

In the **#GREENBAG**

2.00 kg GEMINI Italian Ryegrass Tet
3.00 kg ASTON Crusader Hybrid Ryegrass Tet
3.00 kg NOLWEN Perennial Ryegrass Int Tet
2.00 kg ALFONSO Perennial Ryegrass Late Tet

10.00 kg per acre | SKU: 7019 | 3-4 Years Overseeding

For an organic option please contact us!

HURRELLS ARE ONE OF THE LARGEST STOCKISTS OF ORGANIC SEED IN THE UK.

- MOST OF OUR MIXTURES ARE AVAILABLE ORGANICALLY
- LARGE RANGE OF DIVERSE ORGANIC SEED
- BESPOKE ORGANIC MIXTURES DESIGNED AND MIXED ONSITE BY EXPERTS
- FULLY INDEPENDENT FAMILY BUSINESS

WE HAVE AN EXCELLENT SELECTION OF ROOTS -

- STUBBLE TURNIPS & MAINCROP TURNIPS
- KALE
- FORAGE RAPE
- MUSTARD
- VETCH
- FODDER RADISH
- FODDER BEET
- SWEDE & MUCH MORE

PREMIUM GAMECOVER SEED SUPPLIER

- ALL SEASONS GAME MAIZE
- COVER/FEED MIXTURES
- LONG TERM COVER
- SPRAYABLE COVER
- INDIVIDUAL GAME STRAIGHTS
- STEWARDSHIP MIXTURES
- MISCANTHUS SUPPLY
- ARTICHOKE SUPPLY

WE ARE WILDFLOWER GROWERS AND SUPPLIERS

- MIXTURES FOR ENVIROMENTAL SCHEMES & BNG
- WILDFLOWER MIXTURES WITH AND WITHOUT GRASSES
- WILDFLOWER STRAIGHTS (INCLUDING YELLOW RATTLE)
- MINSTER MEADOWS RANGE (UK NATIVE)
- URBAN HIGH COLOUR RANGE (UK NATIVE & HORTICULTURAL FLOWERS)
- ENVIROMENTALLY FRIENDLY
